

Alibek Kerimov

Architect | Designer

Success is a result of imagination, passion, and implementation. To maintain them, one should have a discipline.

I am disciplined to achieve my goal, that is to make goods for society.

Work Experience

06/2020-08/2020	Unsal Group Construction & Engineering/ Internship on Site <i>The Project was a combination residential and commercial living quarters. The mixed complex Project covers 300000 m2 landscape area with pools, green landscape and common sittinf areas. I was assigned to analyse and report the construction application of the building process during my intern.</i>
07/2021-09/2021	Kurucuoglu Architects/ Office Internship <i>In the Office internship, I was part of desiging group. My main resposnibility was to convert 2d drawings into 3d models or 3d images. Therefore, I have learned to produce visualizations to present them to clients.</i>
06/2022-...	Gokhan Aksoy Architects/ Full Time <i>I am currently working as an architect in Gokhan Aksoy Architects. My responsibilities at this company are project design, project presentation and project coordination. During my employement, I have engaged with more than 20 projects most of which I have designed and presented with a supervision of my manager. Remaining pojects were team work.</i>
